

## Five Days in May: A Novel

Four ordinary people have penciled in death on their calendars for Friday the day an F5 tornado is destined to wipe their little town off the map. One of them is a psychic death row inmate who can see the Big Ugly coming to eat up the world ... but will anyone believe her in time? Jonas Cunningham doesn't see what he's planning to do Friday as murder, but as a final act of unconditional love. Jonas's granddaughter Joy isn't planning to murder anybody either. She'd never kill a person. Reverend Mac MacIntosh has to die because in reality he doesn't even exist anymore. The fourth didn't have to plan death. The state of Oklahoma did it for her. At five o'clock on that Friday, guards will strap a mysterious young killer known only as Princess into an electric chair called Sizzlin Suzie and turn on the juice. Then she will carry to her grave an incredible secret about her crime and the little sister she confessed to beheading 14 years ago. But even before storm clouds blacken the western sky, everything in all their lives begins to change as Mac meets with the convicted murderer on the five days before her execution. He discovers that Princess is psychic, knows the intimate details of his life. She can see things through the eyes of someone outside the prison, horrible things--dead babies. And she can feel the Big Ugly coming to eat up the world, roaring with a sound like gravel in a blender. Know this: before the sun sets on that Friday in May, all four of the people who'd penciled in death on their calendars will stand or be hurled to their knees before the Reaper, so close they can feel his cold breath on their necks. But none of them will come to the crossroads of living and dying by the path they planned or leave with the result they expected.
