

Featuring an extra-sturdy library binding! Here is an original and exciting new look at the fascinating natural world of the seashore. Stunning real-life photographs of crabs, lobsters, tide pools, fish, seals, seabirds and more offer a unique eyewitness view of life on the seashore. See a starfish on the move, how a sea urchin disguises itself, a sea anemone catch a prawn, the inhabitants of a tide pool, and fish that change color. Learn how a limpet grips the rock, how a crab grows a new leg, how a prawn becomes invisible, how seabirds catch fish, and how a sea otter sleeps at sea. Discover how long seaweed can grow, why hermit crabs live in secondhand shells, which shells bore holes in solid rock, where a puffin lays its eggs, and much, much more.
