

It's easy to grow your own organic vegetables from seed, even if you're a beginner. Strong healthy plants are essential to successful organic food gardening. In this eBook you'll learn everything you need to know about successfully growing healthy seedlings, in easy to follow steps. We'll show you how to choose seeds, make your own seed raising mix, sow, grow and transplant seedlings. You'll learn the best watering techniques. You'll find out how to make a mini cold frame from recycled materials, and how to make your own low cost liquid plant food, to give your new plants a great start. It isn't really time consuming. You'll find that your seedlings will grow in a remarkably short time. Author Clare Jackson is an experienced organic gardener, garden designer and teacher
