

Boomerang Will Not Return: A Novel of Time Travel

It was supposed to be a simple mission--deliver six nuclear missiles back to the United States onboard the most advanced Stealth bomber in the world. What no one expected was an aerial phenomenon that catapults the plane and its crew from the present day to the year 1942 into the heart of Nazi Germany. With their plane disabled and captured by the Nazis, Major Richard Hartman and his copilot, Captain Deana Crown, are forced to fight for survival in a hostile land decades away from home. With the planes superior technology and its nuclear onboard arsenal, the Nazis could win the Second World War. The battle for the future will happen in both past and present. The pilots trapped in time now have a new mission: to save history at any price.
