

Seaward Margin of the Belize Barrier and Atoll Reefs (International Association of Sedimentologists Series, No. 3)

This first IAS Special Publication contains the oral presentations from a special symposium on pelagic sediments held in Zurich in 1973. The aim of the symposium was to bring together sea-borne researchers involved with the Deep Sea Drilling Project and land-locked researchers studying ancient sediments. If you are a member of the International Association of Sedimentologists, for purchasing details, please see: <http://www.iasnet.org/publications/details.asp?code=SP3>

The Seaward Margin of Belize Barrier and Atoll Reefs. Maurice E. Tucker³ and Robin G. C. Bathurst⁴. Noel P. James¹ and Robert N. Other publications of the International Association of Sedimentologists. SPECIAL 3 The Seaward Margin of Belize Barrier and. Atoll Reefs. Edited by N.P.
