

Deep Blue (A Doc Ford Novel)

Doc Ford has long lived a double life. This time, it may finally have caught up to him. The electrifying new thriller from the New York Times-bestselling author. Ill make an example of someone close to you. On a moonless night on Sanibel Island, Florida, marine biologist Marion Doc Ford carefully watches a video of a hooded man executing three hostages. The man is an American working with ISIS, and in the next few days, itll be Fords job, as part of his shadowy second life, to make sure he never kills anybody else again. But a lot can go wrong in a few days, and Ford has no way of knowing that not only will the operation prove to be a lot more complicated than he has anticipated, but that hell end up bringing those complications back with him to the small community of boaters, guides, lovers, and friends in Dinkins Bay, where hes long made his home. Someone has taken Fords actions very personally, and now no one there is safe least of all, Ford himself. White continues to provide thinking readers with action-packed thrillers that are also thoughtful and informative, writes Bookreporter.com. By the end, you wont be able to read fast enough. Better get started now.
