

Hells Gate

When 35-year-old litigator Hunter Lee decides to turn his back on the rat race that has made him rich but cost him his marriage, he takes the advice of his brother and goes to Montana. There he joins the elite Smoke Jumpers, who parachute out of C-5 airplanes to contain the worst forest fires of the remote West. But escape from the ugly side of human nature is hardly what he finds when word reaches him of a small town's little secret involving arson and the reckless quest for profits at the expense of lives. As Hunter follows his instincts, Montana becomes a crucible where good and evil collide -- and where one man, running from his past, takes on the burden of exposing the guilty while saving himself and those he cares about most from the greatest danger they have ever faced.
