

Hepatocellular Carcinoma GUIDELINES Pocketcard (Guidelines Pocketcards)

GUIDELINES Pocketcards are multifold pocketcards containing society-endorsed, evidence-based treatment guidelines in a brief algorithmic format that is most preferred by practicing clinicians, quality managers, nurses, educators, and medical students. The Hepatocellular Carcinoma GUIDELINES Pocketcard is endorsed by the American Association for the Study of Liver Diseases and based on their 2011 guidelines. The Hepatocellular Carcinoma GUIDELINES Pocketcard provides all that is needed to make accurate clinical decisions at the point of care including key points; surveillance and assessment recommendations and the role of AFP; algorithms for investigating small hepatic nodules, the BCLC staging system and treatment allocation; treatment recommendations; current medication table with brand and generic names; and detailed drug information including strengths, formulations, and comments. Applications include point of care, education, QI interventions, clinical trials, medical reference, and clinical research.
