

# How To Build Your Own Shed

Not everyone needs a garden shed. But, if youve no more space on your garage wall for that new leaf rake, if you cant find your potting trowel because it fell behind the kids bikes, and if your car has that forlorn, neglected look since the brand-new snowthrower moved in last fall, its time to face the undeniable truthyour outdoor tools need a home of their own. The design of your garden shed can take any form, from a simple lean-to to a large free-standing building. Ours occupies a modest 6 x 8-ft. areanough for a variety of tools, but not so large that it dominates a backyard landscape. The straightforward design is easy to expandup to about 8 x 12 ft.to suit your storage needs. This Ebook is your step by step guide on building your very own 6ft x 8ft garden shed. Detailed step by step guide with pictures which will have you building your very own shed in next to no time at all.
