

Song of Ariel: A Blue Light Thriller (Episode 4 of Book 3)

As the plague ravishes the planet, Jason La Chance and his new traveling companion, a fourteen year old girl named Charlee Loring encounter evil and devastation like they never knew could exist on earth. Barely escaping with their lives they meet up with Danielle Peterson and her traveling companion Slim Pickard. The immediate sexual tension between Jason and Danielle is evident to everyone in the group, even as Jason and Danielle discover that they both possess an identical object purported to be of alien origin. What they discover about the two objects will change their lives forever. Meanwhile, Doug, Annie and Ariel have fled to the ice caves where they have taken refuge from those who want them dead. Soon they discover that they have company. Rick Jennings, Danny Wolf, Laura Higgins and Eli Richey have shown up, as well as a woman from Dougs past who he thought was long gone from his life. Her presence enrages Annie until Annie discovers why the woman and her traveling companion, Dr. Seth Randal have journeyed so far to find them. They have information about Ariels fate.
