

# Icehenge

On the North Pole of Pluto there stands an enigma: a huge circle of standing blocks of ice, built on the pattern of Earth's Stonehenge--but ten times the size, standing alone at the farthest reaches of the Solar System. What is it? Who came there to build it? The secret lies, perhaps, in the chaotic decades of the Martian Revolution, in the lost memories of those who have lived for centuries.

Icehenge (1985) is a science fiction novel by Kim Stanley Robinson. Though it was published almost ten years before Kim Stanley Robinson's acclaimed Mars trilogy, as most of you already know TMC (that's us) came out with a modpack (called Icehenge) for MC 1.6.4 and it's awesome.
