

The Coder & The Fixer

Two 700-year-old spaceships, a Jesus-follower, and a killer all need help to survive. Nidal is the coder on the Faithful. He's brilliant, ruthless and faithless. For him, it was join the Brotherhood or watch his mother die. Now, as part of the Brotherhood, he has taken down ship after ship. The flagship, carrying the president, is their last target. Azalea is the fixer on the flagship, Reliance. Her creative genius and her faith have kept them operational and one step ahead of the Brotherhood. But, when the Brotherhood hijacks the ship, Azalea must bind herself to the foreign coder in order to save all that remains of humankind.
