

The Engine Driver (Now Hear This! Stories That Rock Book 1)

Sixteen-year-old Brig has never been allowed to hear a sad song in her entire life.

Like everyone else in her community, the personal Playlist Treatment Plan that plays in her head is designed to control her emotions - from when she's happy or sad, to when she falls in love. But for Brig, who suffers from depression, a song in a minor key will never be played. When her friend, Annaby, is chosen to go to Musicians School and is given a Permit to Carry a musical instrument, Brig knows that she has just this one chance to hear a sad song, a love song or a song that matches what her depression feels like, instead of what her feelings should be. *The Engine Driver* is a YA dystopian short story of 21 pages.
