DescriptionCyberpunk City 2
The Social Workshop
The future was supposed to be bright. It was supposed to bring hope. All the future actually brought was overpopulated cities and a widening gap between the rich and the poor. The hackers are at war with the lawmen, the pharmacists gouge their clientele, and identity thieves clash with the loan sharks. It's a dangerous world out there. Are you strong enough to survive where all your friends fall? In Neon Nights, the metropolis is changing, and it's up to you, the player, to make a stand before you're taken out in the name of progress. So fight back against your diabolical government and take back your city. This expansion contains an updated manual for hosting games larger than before. It also has 2 brand-new archetypes.
