

Precious Sacrifice (Preyfinders)

Jadd is an Igrakk Warrior, honed like the sharpest blade, to kill and to command his men, but his conscience gets in the way. When punishment entails becoming a Preyfinder and trialling the Pet-creating drug on a human called Brittany, he plans to stay calm and do his duty. Until he falls in love. A Preyfinder is trained to withstand hardship and pain, but Jadd would rather kneel before a firestorm than leave his captive, Brittany, to be stalked and killed. The choice between love and loyalty to his soldier brothers may tear him in two.
