

Buckets, Bullets, and Bug-Outs: Book 2, Its Time to Get Home

Book number 3 of this trilogy is now available to the public. Same great price point. Same great reading. Enjoy! Book 2 Its day two after the event, whatever that was. Roy Slade may never know. What is certain, is that its time to get home. His wife Sondra is waiting, as are his daughter and grandchildren. He had tried to teach them how to survive in his absence, had tried to set their family up with supplies to weather a SHTF event, had tried to school them in weapons and security... but was it enough? Society is quickly starting to unravel. Scavenging, begging, and thievery have already become the code of the day. He had to get home! It should be an easy go. Head out of town south as the crow flies. Be home in two days time. But just as in anyones life: there are trials, there are decisions... and there is humanity. How could everything go sideways so quickly? Roy knew that eventually the savagery would begin between humans trying to survive, but he never expected it to happen so quickly. So many need help, but survival means hard choices have to be made. You cant save em all! As always, a smidge of violence and sexual situations is the salt and pepper of my stories. Not too much, but just enough for flavor. If you want your adrenaline to spike... then begin turning these pages! Stay frosty!
