Short description Back of the book: In a state where the rules for properly beating your wife are posted on the bedroom door, one woman tries to keep her small corner of the world from falling apart. But events suddenly get worse when an unstoppable madman hijacks her entire religion and leads her country into war. How far will she go to protect her daughters? Extended description Hell from a Well is a stand-alone novel in The Hummingbird Series and picks up from where Patent Mine leaves off. It opens with the birth of an immortal who failed at his only mission in life. Pissed, he finds himself in the perfect place to unleash a vengeful rage, surrounded by terrorists. But like all of this series, nothing is as it seems. His story, always there, melts away to another story told. That of a family in a war-torn part of the world, barely getting by. A family with nothing finds two orphans that, as bad as things get, they simply can't let die. And the wrath that that brings into their lives
