

# The Savage Garden: Cultivating Carnivorous Plants

Just about everyone's familiar with the Venus flytrap...but did you know that there are pitcher plants that can-and do!-digest an entire rat? Or that there are several hundred species of carnivorous plants on our planet? Full-color photographs of the plants at work and play, plus everything you need to know to successfully grow your own Little Shop of Horrors. Awards 1999 American Horticultural Society Book Award Winner Reviews How to get kids interested in gardening? The San Francisco Chronicle recommends The Savage Garden, because there's nothing children like better than catching insects and feeding them to their houseplants.
